Note:

Additional domain names, mail addresses and web space available at additional cost

1. All services require a standard BT (PSTN) phone line (not included) which can be used for voice and data concurrently.
2. Speeds quoted are maximum and subject to distance from exchange, line quality and exchange capacity.
3. All routers are simple self-install although a technical support desk is available should you require any help.
4. ADSL usage subject to our Fair Use Policy.
